OBJECTIVE

Hi my name is Cray Smith! I'm currently a student at DU under the Full-Stack Flex program. I'm excited to learn all I can and create something new and exciting! Moving forward my goal is to establish a position in Coding and Development as well as push myself to learn new and challenging technologies. As a Junior Developer I want to gain reliable real-world experience in a challenging and thriving environment while building on the tools and techniques I've learned so far. Career and Team driven attitude, with a friendly and helpful personality.
